Dear friends, Dear mayor of nedelino Mr. Bojan Kehajov

After the end of the most magnificent and joyful holidays we want to sincerely greet you and send a powerful message of love, understanding and togetherness throughout the whole world.

As we write these words, all around and in front of us are the memories and impressions of your magnificent last year's festival ("XXI National Folklore Festival for two-voices singing and folk songs") when Nedelino was literally the center of world culture and the promoter of messages for friendship and respect among the peoples (nations) of all continents. Our young dancers will long remember the colorfulness and positive energy of the entire event which rightly justifies the words of your mayor, the respected Bojan Kehajov, that "the festival already has its great international weight".

With sincere desire and hope for further cooperation, seeing each other soon and an expected invitation to participate, we greet you with the announcement of the date of holding of this exciting celebration of folklore. We attached several pictures that testify and speak about the whole atmosphere that was "bubbling" during the festival.

With great and due respect to you

President of the management board of KUD "Kitka" Drachevo, Skopje  
Dragi Cvetkovski
